

X-keys XK-24 KVM Keypad

This version of our X-keys XK-24 is configured to work with KVM (Keyboard Video Mouse) switches to control multiple computers from a single work station. Our free Windows based programming utility makes it easy to assign keystrokes, key combinations, and strings (with or without modifiers) to clearly labeled, dedicated keys. The X-keys emulates a standard USB keyboard and eliminates issues with most KVM input limitations.

- Specifically designed to work with KVM switches
- Easy to program
- No software required for operation
- Great for handheld, desktop, or mounted use
- Multiple mounting options available
- Wired USB connection with other options available

MSRP: \$149.95
Part#: XK-0994-UKVM-R
