

# X-keys® Durable Foot Switch Specifications

for XK-A-75-R

- Rugged design for Assistive Technology application
- Pressure activated switch with auditory click
- Made from heavy duty ABS plastic
- Black with anti-slip ribs
- Mounting is a non-skid base

The X-keys Foot Switch offers an inexpensive yet durable foot switch to work with our X-keys USB Switch Interface. The front hinged version allows the user to rest the ball of their foot on the main pedal and activate the control with slight additional pressure. This is perfect for mouse click, key press, or other operations where a momentary activation is required.
